## PROFILE

Software Engineer with algorithms skills and building up on the Data Science Machine Learning track, Looking for Machine Learning hands-on opportunities to utilize and ramp up my experience.

## EDUCATION

2017 - 2022 **Bachelor's Degree in Computer Systems Engineering**  
*Faculty of engineering, Helwan University*

## PROJECT

### Board Game Review Prediction:

-Multiple linear regression model and Random forest model were be used in this project to predict the Average review of Board Games by scikit learn.

### BigMart-sales-prediction:

-linear regression model and Random forest model were be used in this project to predict the sales of each product at a particular store by scikit learn.

### smart home

By using app in your phone you can control any thing in home.

### ROBOT ARM WITH RC CAR:

**By using app in phone you can remotely control by car and arm using Bluetooth module**

### Miwok App:

- An android app with multiApp screens, Audios, Four activities.
- Optimized an android application with java and android studio.

### Garage system:

- Using intel 8086 microprocessor and proteus to simulate.

## COURSES

4/ 2021-5/2021 **COMPLETE THE DATA ANALYSIS SCHOLARSHIP**  
2 months challenge track from Egypt FWD

4/2021 - Present **MACHINE LEARNING A TO Z**  
Online 44 Hours Course On UDEMY.

4/2021 – present **MACHINE LEARNING**  
Online 11 weeks Course On COURSERA With Andrew.

9/2020 -12/2020 **ANDROID DEVELOPER NANODEGREE**  
Online 3 months certified nanodegree on Udacity with practicing and developing application

12/2020-Present **ACM (ASSOCIATION FOR COMPUTING MACHINERY) (STUDENT ACTIVITY)**  
-Training Competitors to the national ICPC (International Collegiate Programming Contest).

12/2020 -1/2021 **COMPLETE ENTREPRENEURIAL IDEA GENERATION CAMP**

---

## VOLUNTEER WORK

---

### HEAD OF TECHNICAL COMMITTEE

**Nader | 2019 - 2020**

we put a plan to learn and teach soft and technical skills and we achieved it and also we made project (smart Home, Robot .... ) and organized events and seminars.

---

## LANGUAGES

---

-Arabic: native  
-English: very good

---

## TOOLS AND TECHNOLOGIES

---

|                             |                                       |
|-----------------------------|---------------------------------------|
| C++, Java, Python           | Android Mobile Application Developing |
| OOP                         | Pandas, Numpy, Sklearn, Matplotlib    |
| Problem solving             | Database Design, SQL                  |
| Machine Learning Developing |                                       |

---

## KEY SKILLS

---

ML Engineer, Mobile Application Developer, Problem Solver , Self-Motivated, Innovative.
